Secure Connected Device

Every Comp Door comes fitted with Kubu Smart Security sensors as standard, providing you with ultimate peace-of-mind.

Smart Technology As Standard

Kubu is an **Intelligent Alerting System** that monitors the security status of your door in real time - sending a notification to your Smart device if there is anything to worry about.

By seamlessly integrating with the locking hardware in your Comp Door, the Kubu sensor can tell if your door has been: **opened, closed, deadlocked, or even if it is under attack.**

Unlike most other systems, Kubu can alert you to threats before an intruder can breach your home, giving you an early warning and helping to **keep your home & family safe**.

Kubu integrates easily with other smart-home devices like speakers, heating, and lighting - making your entire home **smarter and more secure**.

If that's not enough, Kubu also **ensures peace of mind** by notifying you if you've forgotten to lock your door when you leave, can send scheduled alerts - like at bedtime - about your door's status, and even allows you to share updates with loved ones.

And best of all, Kubu is included for FREE with every standard door purchased from Comp Door.
